

A Structured recurrent model

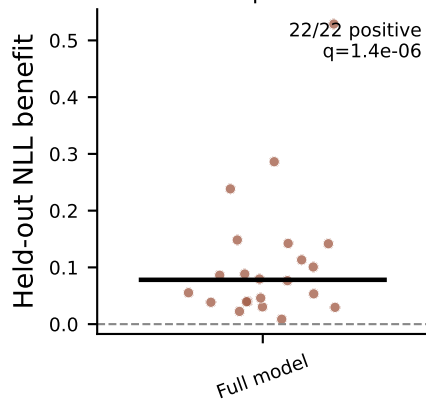

shared symmetric axis scaffold

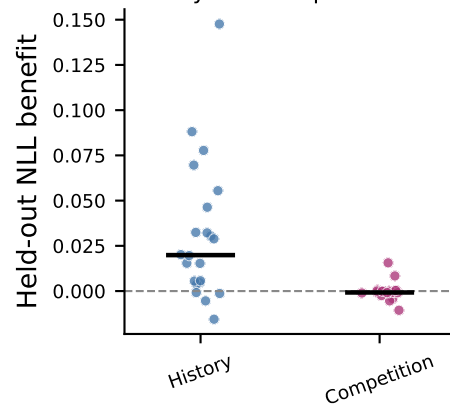

$$P_{t+1} = \rho_P P_t + W^S X_t$$

$$C_{t+1} = \rho_C C_t + W^S X_t$$

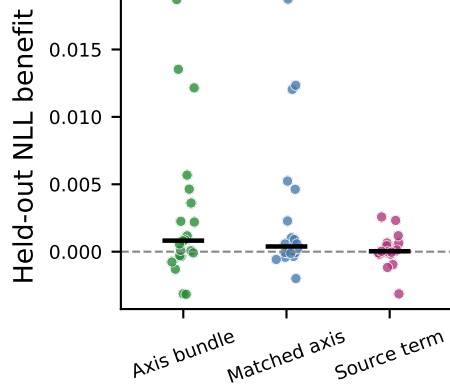

B Next-contact prediction

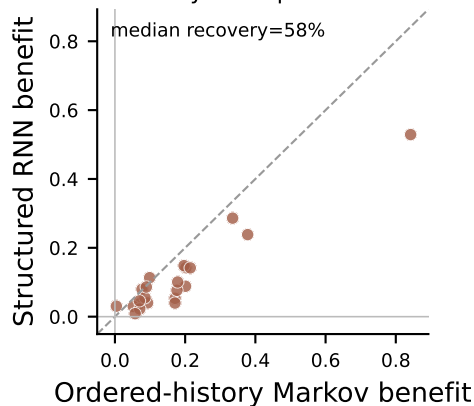

C History and competition

D Axis and source increments

E Recovery of empirical transition signal

F Interpretation gates

Predictive	PASS
History	PASS
Competition	FAIL
Axis	FAIL
Source	FAIL
